**InPrint**®

## Accessing the Mental Health Symbols in InPrint 3

You can use InPrint 3 to make your own symbol materials. The installer adds the new Mental Health Symbols and wordlist to InPrint. A wordlist is a file that links the symbol graphics to the words you type in the software.

To access the CIP resources you must have InPrint 3 installed on your computer. Then run "Mental Health Symbols 2014.exe" from the CD.

To use the Mental Health Symbols within InPrint 3 you need enable to Topic Wordlist called "Widgit Mental Health 2014.cwl" from the 'Symbols tab'.

To open the Flashcards or Discharge Plan go to 'Resource packs' from the 'file tab'. The resources are located in a folder called "Mental Health Resources".

## Important update

We recommend running InPrint **Version 3.5 or above** to make sure you have the most up-to-date symbols. Download the latest version for free:
